

WARRANTY

5 YEAR

TERMS

Uneeke Inc. offers a standard **5-year** workmanship warranty on all composite panel fabrications to perform at or above the requested specifications provided for the associated project for material performance starting on the date of the project's substantial completion.

Project Name: _____

Date of Substantial Completion: _____

Warranty Qualification(s):

This Uneeke Inc. workmanship warranty will remain effective based on the following criteria-

- Substrate was inspected and prepared by installer to proper tolerances prior to panel install.
- Aluminum Composite Panels should not have been installed for any other purpose other than the original design.
- No un-for-seen stresses may be placed on the ACM fabrications in either fabricated module form, completed panel systems or associated system flashing materials by building movement, design changes, framing errors, out of tolerance iron work, moisture impacts or others as such. Improper torsion on the ACM materials from fasteners voids this warranty. Any face fastening of associated items or accessories voids this warranty unless noted in the original drawings.
- No other impacts from adjacent materials or other(s) to be found having directly or indirectly affected the panels including impacts by vehicles, people, animals etc.
- Proper installation techniques are demonstrated / followed for the entire project including layout, dry-in, fasteners and panel system.
- Scratches, gouges, panel imperfections caused by improper handling voids this warranty.
- No Acts of God or other non-typical impacts such as fire or other are found to be directly affecting the panels within their originally designed purpose.
